# DAYS WITHOUT SHOOTING — highlights —

THROUGH MAY 13, 2020

The Office to Prevent Gun Violence (OPGV) is part of the Mayor's Office of Criminal Justice. A central piece of OPGV's work is the federation and support of the city's CMS, which consists of 50 nonprofits operating in 22 neighborhoods where upwards of 50% of NYC's shooting incidents occur. These organizations mediate conflicts and connect individuals who have been exposed to high-risk factors to services that can reduce the long-term risk of violence. The John Jay College of Criminal Justice's [evaluation](#) of these programs showed steeper declines (about 30%) in shootings compared with similar neighborhoods without these programs.
