

# DAYS WITHOUT SHOOTING

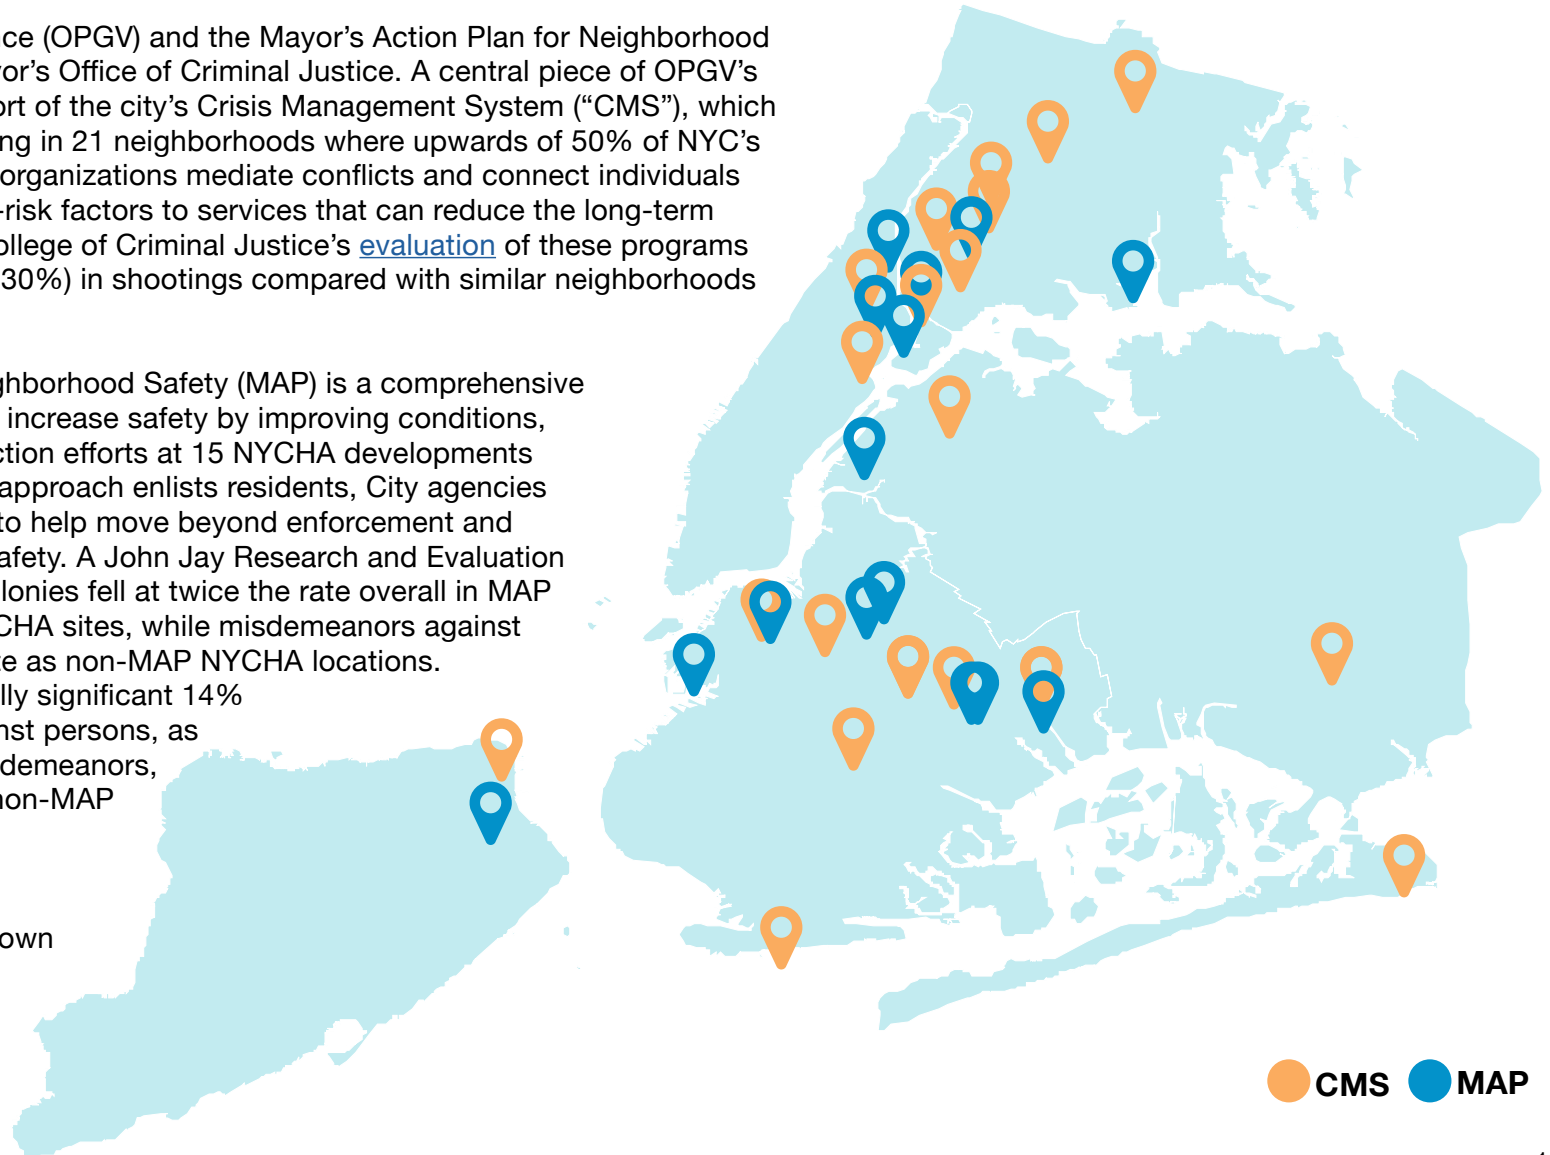

## highlights

REPORTING THROUGH JULY 19, 2020

The Office to Prevent Gun Violence (OPGV) and the Mayor's Action Plan for Neighborhood Safety (MAP) are part of the Mayor's Office of Criminal Justice. A central piece of OPGV's work is the federation and support of the city's Crisis Management System ("CMS"), which consists of 50 nonprofits operating in 21 neighborhoods where upwards of 50% of NYC's shooting incidents occur. These organizations mediate conflicts and connect individuals who have been exposed to high-risk factors to services that can reduce the long-term risk of violence. The John Jay College of Criminal Justice's [evaluation](#) of these programs showed steeper declines (about 30%) in shootings compared with similar neighborhoods without these programs.

The Mayor's Action Plan for Neighborhood Safety (MAP) is a comprehensive neighborhood-based strategy to increase safety by improving conditions, through coordinated crime reduction efforts at 15 NYCHA developments across New York City. The MAP approach enlists residents, City agencies and community-based partners to help move beyond enforcement and address the factors underlying safety. A John Jay Research and Evaluation Center study found that major felonies fell at twice the rate overall in MAP sites compared to non-MAP NYCHA sites, while misdemeanors against people fell at seven times the rate as non-MAP NYCHA locations. The study also found a statistically significant 14% reduction in misdemeanors against persons, as well as a 7% reduction of all misdemeanors, between comparable MAP and non-MAP NYCHA sites.

Continue reading to learn more about our work and for a breakdown of each neighborhood's days without shootings.

# MANHATTAN

## East Harlem (SAVE, Precinct 23)

LONGEST STRETCH

**410 days without a shooting**

*(from 4.11.17 to 5.26.18)*

DAYS SINCE LAST INCIDENT
